

# Roadmap for MOC Credit

## Applicant

## Quality Committee

\*Full details, applications, and instructions available at [Pediatrics.vumc.org/quality-improvement](https://Pediatrics.vumc.org/quality-improvement)

\*\*All applications will be reviewed with the same level of scrutiny and urgency. We will not be able to expedite applications to reach an approaching end-of-year deadline.

With questions, please contact  
 David Johnson (david.p.johnson.1@vumc.org) or  
 Barron Patterson (barron.patterson@vumc.org)

\*\*\*It is the individual physician's responsibility to notify the Quality Committee when they have met all requirements and completed the attestation form. Upon successful completion, individuals will receive 25 MOC points. (Note: most MOC standards require >>25 Part 4 points to maintain certification! Participation in only 1 approved MOC Part 4 project over the several years allowed to acquire points needed to maintain certification will likely NOT meet full requirements. In other words, it is unlikely that getting 25 points from 1 completed Vandy-sponsored project is enough to get all your points required for MOC.)
